DANIEL DOMÍNGUEZ RUBIO
Full Stack Developer

"Self learning ability and technical capabilities, but more importantly, I know how to grow, polish and improve digital products. This was all about my career as a developer."

Barcelona - contacto@danieldev.es - danieldev.es

Professional Experience

Panaworld S.L *(2009 – 2023)*

A company dedicated to the Internet business and advertising. I changed my responsabilities there over the years.

- **Full Stack developer (100% Remote)** *(2020 – 2023)*
  Legacy code maintenance. Development of new application services using React, NextJS, Tailwind, Nodejs and other technologies. System administrator basic maintenance (web server, services, certificates).

- **Developer, PO and S.E.O** *(2013 – 2018)*
  Responsible for company products. Technical work as a full stack developer and game developer. Competitor analysis and product care. Staff under my charge. Direct reporting to CEO.

- **Full Stack developer** *(2010 – 2013)*
  I started working on both Backend and Front. I wrote code with PHP and a custom framework we made. I took care of the MySQL databases. I made responsive sites with CSS / HTML and JS. I created REST API's and was in charge of servers, Debian, Nginx, MySQL, Cronjobs, etc.

- **Junior Frontend Developer** *(2009 – 2010)*
  Upon entering the company they gave me layout tasks, using HTML, CSS and Javascript for the job.

Cerámicas Montgatina S.L *(2007 – 2009)*

- **Machinist and Robot operator**
  Assistance and programming ABB Robot for the manufacture of fine dining dishes.

Ball Corporation / Aerocan *(2005 – 2007)*

- **QC quality control in production line**

Other companies *(2002 – 2005)*
